The original order (no 2521-6 med 19.0-10-11 dd 6.10.1911) sanctioning the establishment of a Maternity and Hospital at Robertsonpet was passed after consulting the Fl Branch through which the order was also communicated to the Comptroller. The present order only modifies the first order in respect of debit of the initial & recurring charges of the institution between the Bovl funds & the funds of the Kolar Gold Fields Sanitary Board. The administrative deptt seems to be competent to order such modification of a minor nature. The order is however proposed to be communicated to the Comptroller thro' the Fl Branch

28. The F. D. ought to have been consulted, the more so as the original orders had received the assent of H. H. the Maharaja. The net result of the present order is to add 1/6th of the expenditure more to general revenues & what the establishment charges are to be is not yet known. If it is only a small amount, the addition would also be small and the order may be acquiesced in. If, on the other hand, the charges are large, the net recurring addition would not be justifiable at a time when every available sum is required to meet the cost of the Cauvery Reservoir & the Ry lines to be constructed. In the circumstances, may the order be communicated to the Comptroller?

6. Read and considered Government Proceedings No.2521-6 Med. 190-10-4 dated 6th October 1911, sanctioning the establishment of a Maternity Hospital on the Kolar Gold Fields, subject to the Kolar Gold Fields Sanitary Board contributing a moiety of the initial and recurring charges and of the cost of acquiring and adapting the Coronation building for the purpose.

Resolved unanimously, that in view of the particular nature of the Kolar Gold Fields Sanitary Board area, whose population consists of diverse classes of people from various parts of the country, scattered over the Fields and whose interests and wants, especially in matters of water supply, drainage, healthy surroundings &c, need much attention, the Board regret their inability to meet half the cost of the Institution, with their very limited sources of income; but having regard to the great importance of and pressing necessity for the Institution they will be prepared to bear one-third of the costs of the initial expenditure and of the recurring charges, being Rs 1,033 and Rs 172 per mensem respectively, besides a moiety of the costs of acquiring and adapting the Coronation building for the purpose as already agreed to, and that accordingly the Government be requested to kindly reconsider their Order with regard to the up-keep of the establishment and direct the opening of the Maternity as early as possible.
